President's Birthday: Gifts for Girls

Dear Nile Care Family and Friends,

Aziku Lillian; Etele to
St Andrews S S

I write to request the pleasure of your virtual company to commemorate April 20, 1950, the day I took my first gulp of atmospheric oxygen as I left my mother's warm womb. I do not remember this day with nostalgia because, for me, it was the beginning of an impossible struggle to survive with no hope for the future. I knew that I could only afford to pay my way up to 6th grade. I did not think that I would study beyond the 6th grade until a stranger came to my aid and committed to see me through up to university, no matter how difficult it was for him.

On Saturday, April 23, 2022, I celebrate my birthday to honor that stranger who came through for me at my hour of need and to remember all the students in West Nile who must discontinue school because they cannot afford to go beyond 7th grade, especially the four intelligent girls that Nile Care picked for the Nile Care Scholarship. I want to be, to them, "*that stranger who came through for me*". But if I attempt to support them alone, I will have to drop some of them. That is why I need your help.

Ayikoru Gladys; R
Camp to Tarantino

Whatever birthday gift or card you would like to send me, convert it into dollars and send it to me. I will use the gift for the education of the four girls, at least up to secondary school level. So far, Nile Care has taken 13 girls through high school and has 10 currently in high school.

Azicia Cicilia Aroi to
Muni

Okunia Harriet Aroi
